

Elevate, Innovate, **Protect:**

Your Journey to Modern

Business Excellence

Are you ready to elevate your business operations into the modern digital landscape?

In today's interconnected world, where data flows seamlessly across digital domains, the safeguarding of sensitive information and the seamless scalability of resources have become paramount.

Cybersecurity and Cloud Services are not just buzzwords – they are the bedrock upon which modern businesses thrive.

The intricate dance between robust cybersecurity measures and the limitless potential of cloud solutions has reshaped the way we operate, innovate, and protect your assets.

Join us

on a journey where reinforcing your digital capabilities and the vast potential of cloud-driven growth converge to redefine what's possible for your business.

Elevate your operations, streamline costs, and amplify efficiency through our comprehensive suite of cybersecurity and cloud services.

Cybersecurity

Skyrocket Your Success

Experience comprehensive protection against a wide array of digital threats. Our experts identify potential vulnerabilities and tailor solutions to mitigate risks. We empower your digital landscape by proactively strategizing security measures, ensuring you always remain one step ahead of cybercriminals. Our services encompass OSWAP guidelines and SOCaaS services, which offer comprehensive cybersecurity protection 24/7 for all network edges, applications, devices, and users.

-  **27x7 Cybersecurity Monitoring**
-  **Incident Response**
-  **Threat Intelligence**
-  **Threat Detection & Investigation**
-  **Insider Thread Detection**

Cloud Services:

Skyrocket Your Potential

Our consulting services provide strategic guidance to select the perfect platform and migration strategy. Embark on a seamless migration journey from on-premises or legacy systems to cloud platforms such as AWS, Azure, or GCP but not limited to. With meticulous infrastructure management, we **optimize resource utilization, manage costs, and ensure unmatched scalability, availability, and performance.**

-  **Cloud Consulting**
-  **Cloud Migration Services**
-  **Cloud Infrastructure Management**
-  **Cloud Integration Services**
-  **Cloud Cost Optimisation**
-  **Cloud Application Development**

Success story

Optimizing Resource Utilization for a Technology Unicorn

Challenge

Our client, a prominent technology Unicorn, confronted a considerable financial burden arising from their infrastructure expenditure driven by resource utilization inefficiencies.

Results

The impact of these strategic interventions was transformative.

6GB per minute Network bandwidth
(from 50GB per minute)

Decrease from 20% to 11%
for Average CPU utilization

≈ 220,000 euros annual savings
from a substantial reduction in cloud expenditures

Solution

By conducting a thorough architectural analysis, we revealed that the platform operated on a micro-services-oriented architecture intertwined with components inherited from an older monolithic system. We devised an approach to refine the database queries originating from the monolithic segments. This refinement significantly enhanced resource efficiency. Moreover, the team streamlined operations by eliminating redundant logs that contributed to resource waste.

Discover the full portfolio and power of PitechPlus Services!

We've earned a reputation for enabling our clients to enhance their businesses with improved efficiency and increased value, becoming their trusted technological partner. In addition to our commitment to excellence, we also work with skilled peers who specialize in state-of-the-art technologies to expand our software development expertise and knowledge.

Bogdan Herea, CEO, PitechPlus

-  17 years crafting skills with our 250+ crew
-  400+ projects: we collect success stamps
-  Empowering 100+ scale-Ups: collabs that rock
-  Team thriving: 5+ years tenure and counting
-  Navigating with super sleek tech solutions
-  Doing Generative AI before it was cool
-  Driven by passion, powered by coffee
